CONTENTS

GENERAL QUESTIONS OF ELECTROMECHANICS

L. I. Eremin, I. Iu. Pugach, E. P. Minchakova
Improvement of photovoltaic array deployment mathematical
model considering the flexibility of joint coupling and
non-linearity of its stiffness parameters..... 3

**SPACE ELECTROMECHANICS. SPACE CRAFTS.
NEAR-EARTH SPACE RESEARCH**

*A. K. Kuzmin, M. A. Banshchikova, I. N. Chuvashov,
G. M. Kruchenitskii, Iu. N. Potanin*
Advantages of observation of auroral structures from two orbits
and possibilities for reconstruction of 3D-emission distributions
received from different positions of imagers..... 7

**PRODUCTS AND EQUIPMENT
TESTING METHODS**

M. Iu. Liberman
Application of direct near-field acoustic method for testing
rocket and space products stability to dynamic
aeroacoustic loads during lift-off..... 22

I. A. Meshchikhin
Methods of structural load-carrying ability evaluation
in the course of superelement analysis..... 37

**HISTORY CHAPTERS OF THE NATIONAL
SPACE METEOROLOGY**

L. A. Makridenko, S. N. Volkov, A. V. Gorbunov, V. P. Khodnenko
Space system Planet-S comprising geostationary
spacecraft Electro No. 1..... 43
